OF

## Wild Cherry.

This well-known preparation still maintains the enviable reputation that it acquired more than forty years since, as the most reliable and effective remedy in the world for the cure of

COUGHS, COLDS, HOARSENESS, SORE THROAT, BRONCHITIS, INFLUENZA, CROUP, WHOOPING COUGH, ASTHMA,

#### CONSUMPTION,

And every affection of

#### THE THROAT, LUNGS, AND CHEST.

WISTAR'S BALSAM OF WILD CHERRY is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the RELIEF and CURE of the above complaints, and is constantly used by them in their practice. A well-known physician writes,—"It does not dry up a cough and leave the cause behind, as is the case with most preparations, but loosens it, cleanses the lungs, and allays irritation, thus removing the cause of the complaint."

50 Cents and \$1.00 a Bottle.

Prepared by Seth W. Fowle & Sons, Boston, and for sale by druggists and dealers generally.

## PERUVIAN SYRUP,

A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON,

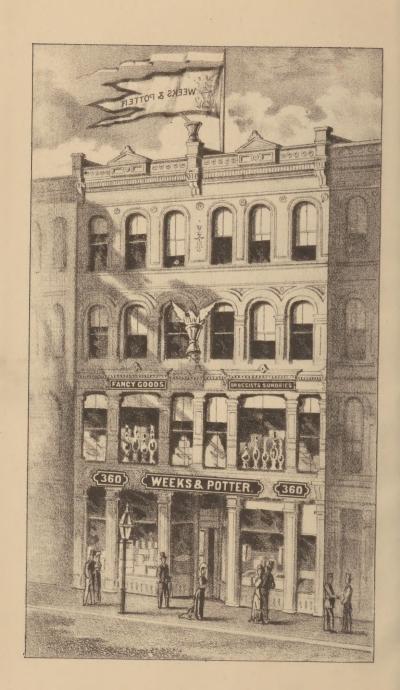

Is as easily digested and assimilated with the blood as the simplest food. When the blood does not contain the usual quantity of Iron, the deficiency can be supplied by the use of the Peruvian Syrup. It cures "a thousand ills" simply by Toning Up, Invigorating, and Vitalizing the system. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon. This is the secret of the wonderful success of this remedy in curing

#### DYSPEPSIA, LIVER COMPLAINT, DROPSY, BOILS, CHRONIC DIARRHŒA, NERVOUS AFFECTIONS, FEMALE COMPLAINTS,

And all diseases originating in a bad state of the blood, or accompanied by debility, or a low state of the system.

#### SEND FOR A PAMPHLET.

A 32-page pamplet containing valuable information on Iron as a medical agent, and testimonials from distinguished physicians, clergymen, and others, will be sent Free to any address by Seth W. Fowle & Sons, Boston. The Peruvian Syrup is sold by druggists and dealers generally.

#### BOSTON:

ALFRED MUDGE & SON, PRINTERS, 34 SCHOOL STREET. 1879.

#### INTRODUCTION.

We have the pleasure to hand you herewith our Catalogue of Drugs and Druggists' Articles for 1879, carefully revised to date.

We beg permission to take advantage of this opportunity to present briefly the following facts upon which we rely for the extension of our business as well as for the retention of the large trade we now have.

- 1. Our Stock of Drugs, Chemicals, and Essential Oils is carefully selected and will compare with that of any house in the country.
- 2. In Proprietary Medicines we can compete successfully with houses making them a specialty.
- 3. We have the largest and finest stock of Fancy Goods and Druggists' Sundries in New England, and invite competition with establishments doing an exclusively fancy goods business.
- 4. Our stock of Wines and Liquors is selected with a view to supplying the wants of druggists, and in extent and variety is fully equal to the demands of the trade.
- 5. As a whole, our stock is larger, better assorted, and more complete than any other in New England, and our facilities for the reception and despatch of orders unsurpassed.
- 6. We invite the most critical examination of every article sent out by us, and cheerfully submit to comparison with other houses.

If we have not had the pleasure of doing business with you, in order to test the soundness of our claims, we respectfully request you to make us the depot for your supplies for one, two, or more months, stipulating that you include all departments as fully as possible the business relations thus established to be terminated at your pleasure, with our assurance here given that all purchases made to said termination (in the event of your desiring to close business relations with us) shall be adjusted to your entire satisfaction.

Our object in asking a concentration of your business in our hands is self-evident; the more we have, the better we can serve you. We request your business for a month or more, because less time will not enable you to fully test the resources of our establishment.

We eschew all combinations on prices, we torture none with travellers, we guarantee the quality of every article sent out, careful attention to details, prompt shipment, and the lowest prices current in this market. We are willing to do faithful work for small profits and prompt monthly settlements.

We feel assured that most druggists will concentrate their trade where such opportunities are offered, and in the hope that you may be induced to make trial of the facilities enjoyed by our house for the satisfactory transaction of your business, we cordially solicit your orders.

Soliciting for our Catalogue a kind reception,

We remain very truly yours,

WEEKS & POTTER.

#### CLASSIFICATION.

No method of classifying Drugs and Druggists' Articles has been found in practice so satisfactory as the alphabetical substantive, which places Oxalic Acid among the acids, and Iodoform under I, in the order in which the combination of its letters permits it to appear. While there are many exceptions to this rule, it is sufficiently accurate to permit the finding of any article by a brief examination of the book. Still further simplicity is given it by a division of its contents into seven heads, viz.: 1. Drugs and Chemicals; 2. Pharmaceutical Preparations; 3. Wines and Liquors; 4. Proprietary Medicines; 5. Druggists' Shop Furniture; 6. Druggists' Sundries and Surgical Appliances; 7. Fancy Goods and Toilet Articles.

MANUFACTURER OF

MCELROY'S PATENT GLASS STRINGES, GLASS TUBES AND TUBING

OF EVERY DESCRIPTION.

#### No. 137 BRIDGE STREET, EAST CAMBRIDGE, MASS.

All Goods Delivered in Boston Free of Charge.

In calling your attention to my goods, I would simply say they are the best that can be made. They will stand more rough usage, without breaking, than those of any other make. First, They are made of the best material. Second, The rubber washers on the pistons prevent them from breaking while in use. Third, They are thoroughly packed, so that it is not necessary to repack them, which is often the case with all others, and as complete Glass Syringes, they are SUPERIOR to anything offered to the trade. In proof of my statements, please read the following

#### TESTIMONIALS FROM THE PRINCIPAL DRUGGISTS OF BOSTON AND ELSEWHERE:

We have sold more of McElroy's Syringes for the past three years than any other kind. They give good satisfaction, and we consider them the best in the market.

## For Dyspepsia, Mental and Physical Exhaustion, Nervousness, Diminished Vitality, Urinary Difficulties, Etc.

Prepared according to the directions of E. N. Horsford, late Professor in Harvard University.

There seems to be no difference of opinion in high medical authority, of the value of phosphoric acid, and no preparation has ever been offered to the public which seems to so happily meet the general want as this.

It is not nauseous, but agreeable to the taste.

No danger can attend its use.

Its action will harmonize with such stimulants as are necessary to take.

It makes a delicious drink with water and sugar only.

Prices reasonable. Pamphlet giving further particulars mailed free on application to manufes. Manufactured by the Rumford Chemical Works, Providence, R. I.

#### WINES AND LIQUORS.

We have for some years been engaged in perfecting this department, until we now believe it to be particularly adapted to the wants of the Drug Trade, and unsurpassed in extent and variety by any similar establishment in this market. Our European connections, now of some years' duration, enable us to compete successfully with any house in this country; while our arrangements with our own distilleries are such that we can offer Alcohol, Cologne, and French Spirits, New England Rum, and Bourbon and Rye Whiskeys, either in bond or duty paid, at the lowest market quotations.

We cordially invite the patronage of the Drug Trade, and in whatever quantities goods in this department may be ordered, our friends have the assurance that they will be of the finest quality obtainable, and invoiced at the lowest possible price. Samples and quotations cheerfully furnished. Trial orders solicited.

# Hoyt's German Cologne.

FRAGRANT AND LASTING.

The Most Popular and Best-Selling
PERFUME OF THE TIMES!

E. W. HOYT & CO.,

\* PROPRIKTORS. \*

Manufactory at Lowell, Mass

Sold by all Jobbers throughout the Country.

We will send, free of charge, to any dealer who applies to us, a supply of cards (see other side), advertising "Hoyt's German Cologne," and perfumed with it, and in order that the distribution of them may be mutually profitable, we print the business card of the party on these cards. We invite you to send in your order for this advertising matter. In purchasing,

#### Beware of Counterfeits and Imitations.

We put up no article of Perfumery excepting HOYT'S GERMAN COLOGNE; any other preparation represented as coming from us is an IMPOSITION and a FRAUD. Ask for HOYT'S GERMAN COLOGNE, and before purchasing see that the name is blown in the bottle, the signature of the proprietors printed in red ink across the label, and as an additional guarantee of genuineness observe our PRIVATE United States Revenue Stamp over the cork.

# PATENT

White, No 22.] NIPPLES\_[Pure Gum, No. 26.

Safe! Reliable! Very Durable! No Sore Mouths!

We use nothing but the Purest materials, as will be seen by the following analysis:—

20 STATE STREET, BOSTON.

DAVIDSON RUBBER Co., Charlestown, Mass.

Gentlemen, — I have examined the White Rubber Nipples received from you, and am satisfied that they are entirely harmless when taken in the mouth.

These Nipples do not contain lead in any form, and it is impossible to extract any injurious substances from them by saliva.

Respectfully, 7th of January, 1870.

S. DANA HAYES, State Assayer of Massachusetts.

### CAUTION.

We do not and never have used sulphide of carbon, a new process largely adopted, because it produces goods of a finer finish at a less cost, for we know that it is dangerous for the child, as shown by the following notice:—

"Dr. Forestier reports TWO CASES OF POISONING in young infants brought up by had, both of which were probably due to the employment of white vulcanized rubber nipples. The symptoms were analogous to those of poisoning by the sulphide of carbon, and as that substance is employed in the vulcanization of the rubber, it was in all probability the cause of the accidents. One of them terminated fatally."—The Medical Record of New York.

We keep always on hand the above-named Davidson Patent Nipples Nos. 22 and 26, as well as all other shapes, made of the same stock, and in order to be sure of obtaining our make, always inquire for the Davidson Nipples, a trial of which will convince those who use them that they will last four or five times as long as any other, and are superior to all of this class of goods in the market.

The demand for these goods as they become known to the public is constantly increasing.

Davidson Rubber Co. . . . Boston, Mass.

#### GRILLON'S TAMAR INDIEN

A Laxative and Refreshing Fruit Lozenge against Constipation, Hemorrhoids, Piles, Sick Headache, and all Disorders caused by Constipation.

Tamar Indien facilitates the daily functions, whether their irregularity proceeds from a natural cause or is constitutional. It restores them, when the cause is accidental, as is the case with persons who have been confined in bed, who are convalescent, or of sedentary habit. Green Tamar Indien is indispensable to ladies before and after confinement, and is the mildest and most agreeable purgative for children, who take it with pleasure. The Tamar Indien does not contain any irritating substance, such as podophyllin, aloes, scammony, etc., etc.; and on this account it is the only medicine used for constipation which may be taken without danger every day, since it ewes its advantages solely to its laxative and refreshing properties.

## POND'S EXTRACT.

Recommended by physicians of all schools for inflummatory diseases and hemorrhages. Its great reputation has induced some unprincipled persons to put up imitations under various names, even to call their weak and unreliable decoctions Pond's extract, in the face of the most stringent laws protecting our rights to the sole use of the name of Pond's extract. Many druggists sell a solution which they call an Extract of Witch Hazel, and aftix a label on the bottle, "Pond's extract." Others represent their

decoctions to their customers as being "the same as Pond's Extract," as good as or equal to "Pond's Extract."

#### TO DRUGGISTS.

We desire to caution the trade against this violation of our rights, and to call their attention to the recent law which fully protects us, passed August 14, 1876, entitled—

#### "AN ACT

To panish the counterfeiting of Trade-Mark Goods, and the sale of or dealing in Counterfeit Trade-Mark Goods.

"Those parties dealing in goods calculated to deceive the public, knowing the same to be counterfeit, or not the genuine goods referred to in said registration, shall, on conviction thereof, be punished by time not exceeding one thousand dollars, or imprisonment not more than two years, or both such fine and imprisonment."

Part of Sect. 2d.—"That every person who fraudulently affixes, or causes or procures to be fraudulently affixed, any trade-mark registered pursuant to the statutes of the United States, or any colored imitation thereof calculated to deceive the public, to any goods of substantially the same descriptive properties as those referred to in said registration," etc.

Part of Sect. 3.—" To every person who fraudulently fills, or causes or procures to be fraudulently filled, any package to which is affixed any trade-mark," etc. etc.

Part of Sect. 8.—"That any person who shall, with intent to defrand any person or persons, knowingly and wilfully aid or abet in the violation of any of the provisions of this act, shall, upon conviction thereof, be punished by a fine not exceeding five hundred dollars, or imprisonment not more than one year, or both such fine and imprisonment."

All those who intertere with a proprietary article in any way, either in representing others as the same, or refilling an original package, or in conner joining the trade-mark, or in any way using a name already protected by two, are violating this act of Congress.

AND

## Country Merchants.

We would call your earnest attention to our well-known preparation

As the most Reliable and Salable Remedy of the Age for all complaints

OF THE

### Stomach, Liver and Bowels.

It is particularly adapted to the wants of all persons living in a bilious climate, or of a bilious habit. It is in the form of a powder carefully prepared, and put up in hand-some filnt-glass bottles.

It has the sanction of, and is daily prescribed by our best physicians, and you can recommend its use to your customer with full confidence that it will perform all we claim for it.

Medicinally it holds great advantage over the common Seidlitz powders, and is more portable and economical, each bottle containing from thirty to forty doses.

We shall continue a liberal system of advertising, and shall be pleased to furnish you with Glass Signs, Circulars, Cards, Posters, etc.

It is for sale by all Wholesale Drug and Patent Medicine Houses in the United States, Canadas, West Indies, South America and Mexico.

## PARKER'S COMPOUND ORRIS TOOTH POWDER

IS ONE OF ESTIMABLE VALUE IN

PRESERVING and BEAUTIFYING the TEETH. STRENGTHENING the GUMS, and in imparting a PLEASING FRAGRANCE to the BREATH.

It has been found, on microscopic examination, that the secretions in almost every person's mouth contain more or less vegetable and animal life, that withstand the application of acids and astringents, and will only succomb to alkalies, of which soap was found to destroy them instantly, and a preventive to their formation. But soap, alone, is not sufficient to properly cleanse the mouth, and keep it in a healthy continuition; some substance should be combined with it to produce a gentle friction (sufficient to create a healthy circulation of the blood in the gums, and remove from the surface of the enumed any extraneous accumulation that would otherwise disfigure it), such as prepared langlish chalk, fine Florentine Orris, which, combined with other choice ingredients, form this powder, making it an effective and harmless dentifrice.

TESTIMONIALS.

From the Christian Union, August 22, 1877: "Ever since Dr. Wm. M. Giles, of 120 West Broadway, extended a frank invitation to owners of lame horses to bring their equine property around to his place of business for free treatment, the corner of Twenty-seventh Street and Sixth Avenue has come to resemble a horse fair. The doctor's bold decisined, which is thus thrust upon the curious attention of his neighbor, is based upon his carnest belief in his lodide Ammonia Liniment, which is now preferred to all others by the chief stock raisers and sporting men of the country." A valuable horse of the writer's was kicked on the hock; swelling and lameness ensued, rendering the animal nearly worthless. We were advised to try (files' Liniment, and are gratified to say it acted like worthless. We were advised to try Giles' Liniment, and are gratified to say it acted like a charm. About two inches of bone came away, the sore healed up, and the lameness and swelling are fast disappearing.—[Henry Ward Beecher and Lyman Albott, editors.] Send postal card for pamphlet containing full particulars to Dr. Giles, 120 West Broadway, N. Y.

"I had twelve strokes of paralysis. My leg, tongue, and arm were useless; was obliged to use a catheter every day. Dr. Giles's Liniment Iodide of Annmonia has cured me. Will answer any inquiries so that all afflicted may know of it."—John Appell, Nor'h Bradford, Conn.]

W. M. Giles, Esq. Dear Sir, —I used your Iddide of Ammonia Liniment on "Flora Temple's" hind pastern joint. She had been quite lame; the effect was wonderful; she walks now quite well. Very respectfully yours,

wife suffered with this terrible complaint. She was attended by doctor after doctor, went to the different hospitals where females are treated; tried them all—wore bandages and pessaries with only temporary relief. Her life was miserable. We applied Dr. Giles's Limiment. Her relief was immediate. She is now well."—[B. McDermot. 40] West Thirteenth Street, New York.]

ASTHMA.—The tortures and agonies I endured for six years, none but those who have suffered with the disease can know. My life was miserable. In desperation I tried Giles's Limiment lodied of Ammonia. It gave me instant relief. Used it internally as well as externally.—[Thos. Brannigan, 27 West Trienty-second Street, New York]

"I was in a dreadful condition. Joints swollen, pain intense. Injections of morphine into my veins failed to relieve me. Giles's Limiment took away the deposits from my joints. I want every one who suffers to know what will cure them."—[Fordure Lotrop, North Hydle Park, Lammoille County, Vt.

#### WONDERFUL SUCCESS

#### DR. T. FELIX GOURAUD'S

## Oriental Gream, or Magical Beautifier.

It is the province of the press to guard the public against imposture in all matters of public concernment. In no direction have fraud and humbug been more lively than in the preparation and display for the sale of Cosmetics and Toilet Articles. The country is fairly flooded with trash under these names. Aloof from these stand the preparations of Di. Fellix Gouraud, principal among which is his Opiental Cycam, or Magniel Beaucière. This has secured the highest medical testimony for its harmlessness as an application to improve the complexion. It needs no fletifious certificates as vouchers; its vouchers are the living representatives of fashion and beauty, who testify in every circle of select society to its admirable qualities. There is no gathering of the ellie a watering places, ball, the Capitol, or elsewhere, but Dr. Gouraud's Maxical Beautifier does not illuminate and enhance the charm of the occasion. There are thousands ready to proclaim its virtues, and who gratefully acknowledge that it has rendered them a social service to be derived from no other source.

and who gratefully acknowledge that it has rendered them a social service to be derived from no other source.

We will quote just two of the thousands of testimonials in its praise and worth,—one from the distinguished Dr. L. A. Sayre. A lady of the heat ton, a patient of Dr. S., discoursing on the use of cosmetics, he remarked to the lady: "Fou are already awave, madame, that I am opposed to the use of cosmetics; but, as you takes will use them, I recommend Gouraud's Oriental as the least harmful of all skin preparations."

The following spontaneous tribute to the efficacy of Dr. Felix Gouraud's Cream, or Magical Beautifer, is from Mr. T. W. Evans, the oil established perfumer of Philadelphia, and himself the proprietor of a cosmetic second to Dr. Gouraud's:—

"PHILADELPHIA, April 30, 1868.

"DR. GOURATD:—I think your Cream is unquestionably the best thing in this line, for the reason that when a lady once uses it she continues it in preference to anything else. Our customers for it are regular ones. I find that it is retailed by the druggists and fancy stores at two dollars a bottle, yet there is more sold here than you are aware of. What is required to insure a large sale is a liberal amount spent in judicious advertising. Let the ladies know its merits, and especially the price, and if they once try it we seeme a regular customer. If I was the owner, I would sell more of it in this city than all the rest of the skin preparations put together.

"T. W. EVANS,

"The old established Perfumer of Philadelphia." "PHILADELPHIA, April 30, 1868.

Sold by all Druggists. Price, \$1.50.

#### DR. T. FELIX GOURAUD'S MEDICATED SOAP

Cures Pimples, Sealy Eruptions, Salt Rheum, Ringworm, Moth Patches, Comedones, Tetter, Fleshworms, Seald Head, Nettle Rash, Sores, Chafed Thighs, —in a word, all cuticular disagnerments. This soap is a specialty, and must not be confounded with the various lottions and nestrums so extensively advertised for the purpose. Gourand's compound acts on the blood through the hair-like tegumentary tissues, and disperses, instead of repelling, and rehelitions of the blood. This remedy needs no publication of certificates; it has received the stamp of public approbation the past thirty years without a solitary complaint. 35 cents a cake.

## LACTOPEPTINE

LACTOPEPTINE contains all the agents of digestion that act upon food, from mastication to its conversion into chyle, thus combining all the principles required to promote a Healthy Digestion.

One of its chief features (and the one which must gain it a preference over all digestive preparations is is, that it precisely represents in composition the natural digestive juices of the stomach, pancreas, and salivary glands, and will therefore readily dissolve all foods necessary to the recuperation of the human organism.

The principal reasons way LACLOPEPTINE should entirely supersede the use of

Pensin:-

1st. It contains the natural acids secreted by the stomach (Lactic and Hydrochloric), without which Pepsin and Pancreatine will not change the character of coagulated albumen.

2d. It will change the sturchy portions of vegetable food into the assimilable form of

2d. It will change the starchy portions of vegetable food into the assimilation of clucose.

3d. It will emulsionize and prepare for assimilation the oily and fatty portions of food, Pepsin having no action upon this in portant aliment.

4th. Experiments will reacily show that the digestive power of the ingredients of Lactoy-Ettines. When two or more are can bit ed. is much greater than when separated. Thus, 4 grs. of Pepsin and 4 grs of Pancreatine, mixed, will dissolve one third more than the combined dig stive power of each square separately in the same length of time.

5th. It is buch less Laphnsive to presented in the same length of time.

5th. It is buch less Laphnsive to presented in the digests all kinds of food octed upon by Pepsin, besties digesting all other food taken by the harmen atomach. The digestire power of Lactoy-chine, therefore, for exceeds that of Pepsin, bet it is furnished at about the same engine. sume price.

## FLUID MAGNESIA.

#### S. O. DUNBAR.

TAUNTON, MASS.

#### SUPERIOR TO ANY, ENGLISH OR AMERICAN.

This very useful and elegant preparation is used as an Aperient Anti-Acid in dyspeptic complaints, attended with acidity, with very great benefit. It has the advantage over common Magnesia, in being dissolved, and therefore not liable to accumulate in the bowels. It is decidedly superior to Carbonate of Soda or Potash, on account of its aperient quality.

This solution of Magnesia is found particularly beneficial as a pleasing sedative and aperient in all cases of irritation, or acidity of the stomach, febrile complaints, infantile

disorders, or SEA SICKNESS.

An ounce or two of this solution speedily removes heartburn, acid eructations, and

sourness, or irregular digestion.

The solution is of itself an aperient, but its laxative properties can be much augmented by taking with it, or directly after it, a little lemon juice mixed with sugar and water, or even cream of tartar; in this manner a very agreeable effervescent draught can be safely taken at any time during fever or thirst.

The antiseptic qualities of this solution, owing to the presence of so much carbonic

acid, have been found very valuable in putrid and other fevers. As a lotion for the mouth,

it sweetens the breath, and the magnesia clears the teeth from tartar.

The solution has almost invariably succeeded in removing the fits, spasms, and head aches to which delicate persons are subject from acids and crudities of the stomach and bowels.

The Attention of the Public is particularly directed to the following Certificates of Physicians and other persons, who have used the Magnesia.

PROVIDENCE, Nov. 20, 1848.

- Mr. S. O. Dunbar: Dear Sir,—I am happy to hear that your preparation of Fluid Magnesia is coming into general use. While it is more economical than other preparations of Fluid Magnesia, I have found it vastly more efficient, and not only an antiseptic and anti-acid upon the stomach, but a very considerable tonic. It is a beautiful medicine for the bowel derangement which so often afflicts young children; and for females of debilitated and sour stomach, particularly those "enciente," it is invaluable. Being a seientife preparation and open to the profession, it needs only an acquaintance to become with them a favorite medicine. Yours truly, WM. GROSVENER, M. D.
- S. O. Dunbar: Dear Str. I have been some time in the habit of prescribing the Fluid Magnesia prepared by you, and I prefer it to the English preparation on account of its cheapness and its superior laxative properties. M. S. PERRY, M. D.
- BOSTON, Sept., 1843. S. O. Dunbar: — Having used your Fluid Magnesia freely in my family for the past two years, am happy to recommend it as containing all the properties of the best magnesia, in a liquid form. It adapts itself admirably to the stomach, producing a slight and Very respectfully yours,

  JOHN L. HUNNEWELL, Druggist. very easy cuthartic and corrective.

SOUTH HADLEY, Feb. 20, 1860. MR. DUNBAR: Dear Sir, - About a year ago, I received from you a dozen bottles of Fluid Magnesia, which has thus far served in my family as a sure remedy for every disease. I am now in great need of another dozen of the same kind. Will you please to send one dozen quart bottles of it this week, and oblige yours with respect,

MRS. É. ALLEN.

BEE OFFICE, 7 STATE STREET, BOSTON, Jan. 20, 1848.

Mr. S. O. Dunbar: Dear Sir.—It gives me great pleasure to be enabled to bear testimony to your beautiful preparation of "Fluid Magnesia." Having formerly been engaged, as you are aware, in the retail drug business, in this city, and at that time disposed of large quantities of it through the recommendations of some of our best physicians, and to the perfect satisfaction of the consumers, and also, having used it freely in my own family ever since you commenced preparing it, can truly say that for the various purposes for which it is recommended, that I consider it unequalled, and far superior to the English, being fresher and consequently more efficient.

Respectfully and truly yours, C. R. RANSOM.

## HOLLOWAY'S PILLS AND OINTMENT,

112 Liberty St., New York.

#### TO THE DRUG TRADE OF THE UNITED STATES.

GENTLEMEN: -

Please read the enclosed attentively, as I have succeeded in obtaining the following opinion from the Supreme Court.

#### OPINION.

"And I further report that in my opinion, from the testimony and proofs submitted to me herein, Joseph Haydock has the prior title to the Medicines and Trade Marks described in the complaint herein, and the right to manufacture and sell the same, and that he is the owner thereof.

"PHILO T. RUGGLES,

"Referee N. Y. Supreme Court."

To the Drug Trade of the United States I tender my sincere thanks for the courteous support and unwavering confidence that they have reposed in me, during a long and vexatious lawsuit, now virtually closed, which secures to me the SOLE and EXCLUSIVE right to manufacture HOLLO-WAY'S PILLS and OINTMENT, under the Genuine Receipt made by me sixteen years past.

The Trade can protect me further, by purchasing the only genuine Holloway's Pill and Ointment, carefully examining each box of Pills and pot of Ointment, to see that they have my signature attached.

Trusting to the high sense of honor, so well known to the Drug Trade, as regards their objections to dealing in spurious and vile imitations of well-known and Standard Remedies, I believe this Special Circular will have an effect in stopping sales of spurious goods, made by any fraudulent means.

Very truly yours,

#### First Premium Silver Medals

Awarded by the Franklin Institute, Philadelphia; by the Mechanics' Association, Boston; by the American Institute, New York; and by the Maryland Institute.

In the report of the Twentieth Exhibition of American Manufactures, by the Franklin Institute, Pa., it is stated that

#### HUSBAND'S MAGNESIA.

"Believed to be the best in the United States."

Its superior qualities consist in its being entirely deprived of carbonic acid; in its freedom from unpleasant tasse, smell, or other disagreeable property, and without roughness or gritiness to the touch or palate. One teaspoonful of it is equal in strength to three or four teaspoonfuls are combining smallness of dose with the most agreeable form in which Magnesia can be administered.

## ISINGLASS ADHESIVE PLASTER.

This Plaster has been found to be admirably adapted to strapping after surgical operations, and as a dressing to either incised or lacerated wounds. It is cleanly, of easy application, adheres firmly with at producing industration, and being semi-transparent, allows an examination of the parts without their having to be disturbed by its removal, until, in many instances, the cure is effected. This Plaster is not affected by age, and will bear exposure to any climate.

Prof. Mutter, in his late edition of Prof. Liston's Lectures on Surgery, etc., remarks that "The Isinglass Plaster referred to by Mr. Liston is exceedingly well made by Mr. Husband of this city; and, for some time past, I have almost abandoned the use of the old Adhesive Plaster of the shops, which, often, in persons of a delicate skin, or children, produces troublesome irritation."

The following testimonials from some of the most distinguished Surgeons in the United States will show the estimation in which it is held by the profession: -

"I consider the Isinglass Plaster prepared by Mr. Husband a very valuable article for many surgical purposes, and think it ought to be introduced into general practice."

W. GIBSON, M. D.,

Late Professor of Surgery, etc., in the University of Pennsylvania.

"I have used the Isinglass Plaster prepared by Mr. T. J. Husband, and find it an excellent article. It is, therefore, with much pleasure that I recommend it to the profession."

## CALDER'S SAPONACEOUS DENTINE,

FOR CLEANSING, PRESERVING, AND BEAUTIFYING THE TEETH.

TRADE MARK.

"DENTINE."

PATENTED, No. 6,762.

This agreeable and efficacious Tooth Powder, established by more than twenty years' experience, has received the sanction of the members of the Dental and Medical professions generally, and by them it is daily recommended and prescribed. It is as pleasant in the application as it is excellent in its effects; it speedily renders the teeth white and smooth, the guns healthful, red, and firm; and by frequent use will preserve them in this desirable condition. It gradually but effectually removes tartar, and destroys the parasitical animalculæ which neglect may have permitted to collect, and prevents their further accumulation, thus serving as a complete beautifier and preserver of the teeth.

The following from Dr. George Thurber, Chemist, Professor of Materia Medica in the New York College of Pharmacy, formerly Assistant Assayer in the U.S. Assay Office, New York, will be considered as satisfactory evidence of the good qualities of the Dentine:

U. S. ASSAY OFFICE, NEW YORK, April 20, 1857.

I have made a chemical examination of Mr. A. L. Calder's "Saponaceous Dentine," and find that its constituents are such as can neither chemically nor mechanically injure the teeth. The judicious selection of the ingredients, and the evident care exhibited in its preparation, commend it as a harmless as well as efficacious Dentifrica.

True theory will bring right practice. Some doctors recommend, in chest and bronchial affections, mustard applications. This is wrong, because they are too stimulating, often making the local trouble permanent by the effect upon the pores of the part, which may be so injured that years will be required to bring them into that condition of healthful action, by which they perform their office of insensible perspirators. Time, energy and money are absorbed by interfering with nature's processes that which should be left alone. In Allocck's Plaster you have all that is needed where pain is present. They produce a gentle revulsive action upon the skin, never burting it, but exceedingly curative in all cases of sore throat, bronchial affections, pleurisy, pain in the side, kidney and back troubles. Be careful how you excite the skin by mustard or other stimulant applications, on will repent it. tions; you will repent it.

T. Alloock & Co.— Gentlemen: Your Plaster, which ought to be called "the Magic Plaster," has wrought such a cure on my lame back, that duty compels me to speak to you, and the public through you, of their efficiency. A few weeks ago I commenced to have a slight pain across the small of the back, which gradually increased until it became almost intolerable—stiting, standing, or lying made no difference—the pain flushy becoming continual and very painful. A friend, who had formerly recommended your invaluable Plaster (which I tried two years ago with great success), mentioned the fact, which induced me to try it again, and I am happy to say, three days only have clapsed and every vestige of the pain has ceased. Publish this if you wish, for I am anxious to help appland a thing that I have received so much case from using. Hoping for your continued prospectly, I remain, very gratefully yours, etc.,

Mesers. Alloock & Co. — Gentlemen: Some seven years ago I was troubled with a weakness in the back and a pain in my side, which rendered life a burden. I suffered fearfully for two years, and the first relief came from putting on two of your Porous Plasters. I kept them on over two mouths, and had not the slightest pain. They supported the muscles of the back and stopped the neuralgic side pain. I have used them now for five years, and toold not live without them. MR. I. CALVIN SHAFER, New York: Your Juices are the best I have ever used. I have heretofore used mostly the French.

P. P. BROWN Manufacturing Confectioner.

TO THE TRADE .- After twelve years' experience in competition with all the foreign and domestic Fruit Juices, I am fully satisfied that a reference to a few of the testimonials attached hereto will convince the most sceptical that our goods stand without a peer in this country, and to all who desire to produce a fine beverage from Soda Water, or Ice Water, they offer, in addition to their delicate and marked fruit flavors, the following advantages, which at once commend them to all dealers, regardless of price:-

They are made entirely from our most carefully selected and highest flavored demestic fruits; and by a process peculiarly our own, will not ferment, whether exposed to the air or otherwise in any climate. They derive their rich and beautiful colors entirely from the fruit, and therefore contain no artificial or deleterious colering matter, and are always clear and transparent and entirely free from sediment—the common and inevitable fault of all other fruit juices put up by the air-tight process.

They need no boiling with sugar or filtering, and if your simple syrup is clear, the

simple addition and mixing of our juices in the proportion required (one part of juice to five of simple syrup) completes your manufacture of rich, clear and transparent Fruit Syrup, at a great saving of tine, labor, and annoyance. Thanking you for your many past favors, I would ask your continuance. Respectfully, I. CALVIN SHAFER.

TO CONFECTIONERS.—I have prepared, this year, a line of Juices of exactly during the theorem of the slove, for flavoring lee Creen, Cake, and Cindius. Price per gallen, §6. Per dozen quarts, §18. Order Confectioners' Juices.

## United States Army Suspensory Bandage

P-39,452-D-C-A-4-1863.

#### THE ONLY PERFECT ARTICLE EVER OFFERED TO THE PUBLIC.

It has been examined and recommended by the best and most noted Surgeons and Physicians in the United States. It has been examined, approved of, and ordered by a portion of the Army Surgeons. It is an article far superior to any Foreign or Domostic Production for the relief and prevention of diseased testacles. It will adjust itself to the person; nor can it be kept in any other but the right position, unless secured or fastened out of place. When one of proper size is worn, the individual wearing it will not be conscious of its pressure, because of its perfect adaptation to the purpose for which it is intended. It can be clearsed in a few moments from the perspiration naturally absorbed by it when worn, which will enable the parts to be kept in a perfectly healthy condition.

Condition.

Heretofore Suspensery Pardages have been used as an article of necessity — with this new application it is an article of comfort. Heretofore it has been used only in cases of disease; with this new application it is fast becoming an indispensable article of gentlemen's attire, as it contributes more to his comfort and happiness than any other article he may wear. It is now used by scores of people in perfect health, for no other reason than for the comfort and pleasure derived from its use. It is a perfect protection for those parts which are liable to injury while riding, laboring, and the numerous other positions which the body may be placed in, thereby causing unlooked for accidents to those parts most necessary to protect. Many physicians who are in perfect health and manhood are now wearing my Patent Suspensory. The reason they assign is that

OGDEN DOREMUS, M. D., LL. D.

#### OPINIONS OF THE MEDICAL PRESS.

From Cincinnati Lancet and Clinic. - "Messrs, Seabury & Johnson have wrought From Cincinnati Lancet and Clinic. — "Messis, Seadury & Johnson have wrough quite a revolution in the municature of all kinds of Plasters by the successful application of rubber as a base in their manufacture. We have seen nothing equal to their Surgeon's Rubber Adhesive Plaster. As much may be said of their Belladoma, Opium, Porous, Capsicum, and other officinal Plasters."

From New Remedies, New York.—"The name of this house has become well known, both here and in Europe, for the exceptional excellence of the plasters of all kinds made by it. Their Mustard Plaster commends itself to us, because of its freedom

from some of the faults com aon to prepared synapisms; one being the quality of the material used and the freedom from liability to crumble, in either a wet or dry state. Their Rubber Plasters, including Belladonna, Cantharidal, Rubber Adhesive, etc., are too well known to need comment."

From The Philadelphia Medical Times.—"Heretofore we have been sceptical concerning prepared plasters; more recent experience, however, has convinced us that Messrs. Seabury & Johnson's Rubber Plasters are not only convenient to use, but are

also perfectly reliable."

### HARTMANN, LAIST & CO.

CINCINNATI, OHIO,

MANUFACTURERS OF

## GLYCERIN,

Chemically Pure, Inodorous. Specific Gravity, 1,260.

Also, GLYCERIN FOR MANUFACTURING PURPOSES.

The quality of our goods has been regarded as STANDARD for a number of years, and we point with pride to the reputation they have made and which we shall maintain. We call the attention of the trade to the following

#### NOTICE.

The uses of GLYCERIN in Pharmacy, etc., etc., have increased of late to such an extent, that the production has been stimulated proportionately, and in consequence thereof a vast deal of inferior Glycerin is being offered to the trade. This article may appear to the eye as good as the chemically pure, however on close examination it will be found lacking in specific gravity and to contain many impurities which make it anything else but chemically pure, for which it is mostly sold.

As the benefits derived in the use of Glycerin depend upon its purity, we beg to point to the necessity of securing a pure article, one that is known to be such, and although there may be a slight difference in price, it will be found that the best Glycerin is the cheapest in the end.

N.B.—CHEMICALLY PURE GLYCERIN should be: white, of spec. gravity of 1,230 (39) Beaume at 60° Fahrenheit), odorless, and must stand the test of Nitrate of Silver.

OUR GLYCERIN has been before the trade for the past twelve years, and is acknowledged as Standard. We can assure our customers that we shall at all times continue to muintain such standard. It is produced by a patented process of repeated distillation, no chemicals being used, while other makers distil but once and bleach by chemicals or Charcoal.

European Glycerin is sometimes offered here at lower prices than the American, but on comparing the Price Lists of the best European manufacturers, we find that what they call chemically pure is higher in price than ours; the inference, therefore, is that they send their lower grades only to this country. While they have several qualities of white Glyceria, we continue to make but one, and that chemically pure.

## Saccharated Pepsine,

(Pepsine Porci,)

### And Saccharated Pancreatine.

Please read the test made by R. Ogden Doremus, M. D., LL. D., Professor Chemistry and Physics, College City of New York, etc.

We desire to call the attention of *Physicians and Druggists* to our preparations of these valuable and well-known remedies.

We claim that they are made of a uniform strength, and perfectly pure. The ordinary Pepsine is principally sugar of milk and starch, and even the small quantity of Pepsine used is so mixed with mucus as to be almost useless, and very offensive obth to the taste and smell. By an improvement on the usual process we are enabled to extract all the mucus, leaving a Pepsine perfectly pure and almost without taste or odor.

The profit in Pepsine has been very large at the prices charged by most manufacturers. We have determined to give the Druggist an article superior to any produced at a much less price, hoping to make more than the difference of the reduction in price by the increased business, believing that we will receive the support of all fair-minded dealers in this, our effort to sell good goods at small profits.

THE STANDARD OF STRENGTH should be, so that the Pepsine will dissolve twelve times its weight of coagulated albumen in water weakly acidulated with muriatic acid, and kept from 3 to 4 hours at a temperature of about 100° Fahrenheit, occasionally agitated, or in other words under circumstances as near as possible to those it would undergo in the human stomach. N. B. — Our Pepsine dissolves 19 times its weight of coagulated albumen. We append Prof. Doremus' test of our Pepsine.

#### THE COLLEGE OF THE CITY OF NEW YORK.

Cor. Lexington Ave. and 23d Street, Nov. 12, 1877.

This is to certify that on Nov. 9, 1877, I received from my son, Thos. C. Dorenus, Jr., a sample of Pepsine obtained by him at M-ssys. Ki bler and Laird's, 83 John Street, New York, from a burrel containing 20) lbs. of the same. That I have made ten determinations of the solvent power of this Pepsine with the following result: Ten grains of the Pepsine placed in an ounce of distilled water, with ten drops of hydrochloric acid, and kept at the temperature of the hu nam body for six hours, with frequent agitation, dissolved 197.1 grains of coagulated albumen. Respectfully submitted,

Shaving Mug.

Patented Dec. 26, 1876, and Dec. 18, 1877.

As will be seen by the cut they are of a decidedly novel design, and rather striking in general appearance. They are of the style of mugs styled "Combination."

The mug is divided into two sections by a partition extending from the bottom to the top of the mug. The front section has supping it, and is intended as a LATHER DISH, the back one as a WATER HOLDER. The top of the partition is hollowed out, thereby forming a convenient edge by which to relieve the brush of superrious water or soap, and also forming, in connection with the elevations seen at the back part, a convenient "cradle" on which to "bang up" the brush.

## Turkish Cosmetique.

This "Standard" Cosmetique has been thoroughly tested during the past four years.

From experience we are assured that a single trial will prove that it is, beyond all question.

#### THE BEST IN USE.

For Fragrance of Perfume it stands unrivalled, as well as for its Wearing and Lasting Qualities as a Cosmetique.

It does not "crumble" like the Italian Cosmetique, nor "grease" or "smut" like the French, but it "blends" right on to the hair, giving it a peculiar silky lustre.
